CHARGER MXS 5.0

Code: **MAA02XXXX0039**

MXS 5.0 is a charger and maintainer with advanced microprocessor with automatic temperature compensation and unbeatable performance for lead-acid batteries (AGM / GEL / WET / MF / Ca-Ca) from 1.2 to 160 Ah. MXS 5.0 can solve many battery-related problems and is ideal for the most demanding applications. Among the many features, MXS 5.0 includes the diagnosis to check if the battery is able to accept and maintain the charge, an automatic patented desulfation phase and a special phase of reconditioning the stratified and very discharged batteries.
