**COMFORT M8 TERMINAL CHARGE
INDICATOR FOR CT SERIES -
40-133**Code: **MAA02XXXX0033**

This innovative connector of the COMFORT series (usable only on 12 Volts batteries) is equipped with a charge status indicator to always have an eye on the level of your battery. Through its RED LEDs (Recharge immediately!), ORANGE (Recharge as soon as possible) and GREEN (Battery charged) informs the user on the status of the battery to which it is connected, thus giving the possibility to intervene with a correct recharge before excessive discharge can cause irreversible damage.
