

CAR / TRUCK > CAR / TRUCK - REELS AND LAMPS > LAMS LINE CAR/TRUCK

**LAMP STAR 03.5620**Code: **MOF10XXX0010**

The STAR lamp is ergonomic and designed to be used as a portable work light. By extending the position of the handle, the lamp transforms and becomes a projector.

Thanks to its power, STAR is also ideal for lighting larger work areas, despite its small size compared to other projectors. With its flexible handle STAR can illuminate even the most difficult to reach corners and using the powerful magnet incorporated in the handle, STAR can be placed in flexible positions on any metallized surface. The lamp also has a USB socket to charge mobile devices and has a handle designed for direct mounting
