TYRE CHANGER S48 AB

Automatic tire changer

Code: **ASM01XSXX0182**

AUTOMATIC TIRE CHANGER with side overturning specifically designed for professionals in the sector, suitable for the disassembly and assembly of wheels of cars and vans of considerable weight and dimensions: locking capacity from 10" to 27". Their particular sturdiness and reliability, the extractable drawer pedal to facilitate maintenance operations, the double-acting bead breaker cylinder, the low ground clearance and the adoption of numerous patented technical solutions make them ideal for operating on particularly difficult tires. and lowered like the «Run-Flat».
