**CS FREE USB CHARGING CABLE
40-465 C/PLIERS**Code: **MAA02XXXX0090**

The USB-C CHARGE CABLE CLAMPS have been designed in Sweden to power your CS FREE quickly, safely and easily from a 12V service battery.

The terminals allow you to charge and maintain the battery of your vehicle wherever you are and without having to connect to a power outlet. Just connect the red and black terminals to the corresponding positive and negative terminals of the service battery and connect the USB-plugC to the charging input port. USB-C CHARGE CABLE CLAMPS are equipped with durable, durable and tangle-proof cables that have been rigorously tested in Sweden.
